PROFESSIONAL SUMMARY

.NET Full Stack Developer with 1.6 years of professional experience building scalable, efficient and user-friendly web applications with C#, .NET Core, ASP.NET MVC, ASP.NET Web API, Angular and SQL Server. Works for the US client BOLD Precious Metals on its live eCommerce platform and on Cerebro, the internal application used to manage and run the website. Owns features end to end: SQL Server queries and stored procedures, Web APIs, Angular and MVC screens, unit testing, bug fixing and deployment on testing servers. Has integrated AI models (Claude and Gemini) and automated daily reporting to Microsoft Teams. Focused on clean, maintainable code, application performance and software that meets business requirements.

TECHNICAL SKILLS

Backend: C#, .NET Core, ASP.NET MVC, ASP.NET Web API, RESTful APIs

Frontend: Angular, TypeScript, HTML5, CSS3

Data Access & DB: Entity Framework, Dapper, ADO.NET; SQL Server: T-SQL queries, stored procedures

AI & Integrations: Anthropic Claude API, Google Gemini API, Microsoft Teams, Google Sheets

Testing & Delivery: Unit testing, debugging and bug fixing, deployment on testing servers

Tools: Postman, Git, GitHub

PROFESSIONAL EXPERIENCE

Realiser Labs Pvt. Ltd. Jul 2025 – Present

Software Developer | Projects: BOLD Precious Metals eCommerce, Cerebro | Client: BOLD Precious Metals (USA)

- Develop and maintain features for the BOLD Precious Metals eCommerce platform, a live US online store for gold, silver, platinum and palladium bullion, coins and jewelry.
- Build and maintain Cerebro, the internal application the client's team uses to manage and run the eCommerce website.
- Own features end to end: SQL Server queries and stored procedures, ASP.NET Web APIs in C#, and Angular and ASP.NET MVC screens.
- Handle data access with Entity Framework, Dapper and ADO.NET; test APIs with Postman.
- Unit test new features, fix bugs and deploy builds on testing servers for review.
- Integrated AI models (Anthropic Claude and Google Gemini APIs) into application features.
- Built a scheduled job that runs daily and automatically posts a Google Sheet report link to a Microsoft Teams channel.

Technologies: C#, .NET Core, ASP.NET MVC, Web API, Angular, TypeScript, SQL Server, Entity Framework, Dapper, ADO.NET, Postman, Claude API, Gemini API, Microsoft Teams

KEY PROJECTS

BOLD Precious Metals – eCommerce Platform boldpreciousmetals.com

Client: BOLD Precious Metals (Austin, Texas, USA) | Live production system

- Customer-facing online store with live spot-price ticker and charts, product catalog, cart and secure checkout, customer accounts with order history and tracking, Sell To Us buyback, bullion storage and precious-metals IRA.

Cerebro – Internal Website Management System Internal application

- Back-office application the BOLD team uses to manage and run the eCommerce website behind the scenes.

Daily Teams Report Automation Scheduled job

- Daily job that posts the Google Sheet report link to a Microsoft Teams channel, removing a manual task.

EDUCATION

Bachelor of Computer Applications (BCA) – Veer Kunwar Singh University 2021 – 2024
