SUMMARY

.NET Full Stack Developer with 1.6 years of professional experience building scalable, efficient and user-friendly web applications with .NET Core, ASP.NET MVC, Web API, C#, Angular and SQL Server. At Realiser Labs, works on projects for the US client BOLD Precious Metals: its eCommerce platform and Cerebro, the internal application used to manage the website. Owns features end to end, from development and unit testing to bug fixing and deployment on testing servers, with a focus on clean, maintainable code and application performance.

TECHNICAL SKILLS

Languages	C#, TypeScript, SQL (T-SQL), HTML5, CSS3
Backend	.NET Core, ASP.NET MVC, ASP.NET Web API, RESTful APIs
Database & data access	SQL Server, stored procedures, Entity Framework, Dapper, ADO.NET
Frontend	Angular, TypeScript, HTML, CSS
AI & integrations	Claude API, Gemini API, Microsoft Teams, Google Sheets
Practices & tools	Unit testing, debugging, deployment to test servers, Postman, Git & GitHub

EXPERIENCE

Software Developer — Jul 2025 – Present

Realiser Labs Pvt. Ltd., Pune · Client: BOLD Precious Metals (USA)

- End-to-end development of features using .NET Core, ASP.NET MVC, Web API, C# and Angular.
- Write SQL Server queries and stored procedures; data access with Entity Framework, Dapper and ADO.NET.
- Unit testing, bug fixing and deployment of builds on testing servers.
- Integrated AI models (Anthropic Claude and Google Gemini APIs) into application features.
- Built a scheduled daily job that automatically posts a Google Sheet report link to a Microsoft Teams channel.
- Write clean, maintainable code and optimize application performance.

PROJECTS

BOLD Precious Metals – eCommerce platform — boldpreciousmetals.com

Customer-facing online store of a US dealer (Austin, Texas) in gold, silver, platinum and palladium bullion, coins and jewelry: live spot prices and charts, catalog, cart and checkout, order tracking, buyback, storage and IRA.

Cerebro – internal website management system

Internal application the BOLD team uses to manage and run the eCommerce website behind the scenes.

Tech: C#, .NET Core, ASP.NET MVC, Web API, Angular, SQL Server, Entity Framework, Dapper, stored procedures.

EDUCATION

Bachelor of Computer Applications (BCA) — Veer Kunwar Singh University (VKSU) — 2021 – 2024
